

It's been a rough year for Fly Ins but the Three Rivers Area Model Plane Society (TRAMPS) in Muskogee, OK are going to host a Fun Fly at Hatbox Sports Complex this October the 24th (rain date October 31st). This will be a one day no frills fun fly for any size and type of aircraft. There will be no landing fee. AMA is required. There will be no food service. So if you plan on staying all day bring something to eat or be ready go get something at one of the many restaurants in the area.

We will get started at about 8:00am (early arrivals are OK but no hanger storage will be available) and stop when everyone is ready.

Parking will be on the North runway on the West side. We will pit just west of the runway and be set up to fly from the grass runway West of the pit area. This setup offers a large area for parking and pitting so we should be able to follow the social distancing recommendations. The runway and overflight will accommodate about any size

aircraft.

You can check out our website for directions to Hatbox.

We look forward to seeing everyone in October.
