

The purpose of this document is to define safe flying areas for all RC model aircraft. When flying, **Safety, Common Sense, and Courtesy** should be the governing directives for all pilots regardless of aircraft type.

**Tulsa Glue Dobbers  
Flying Field Safety Rules  
Effective 10.2020**

Park Flyer and  
Foamy 3D Zone  
  
Aircraft flown here must  
stay within this zone.

There shall be no flying of aircraft west of the north south Yellow line described by the west edge of the runway (except as noted) nor shall any aircraft be flown south of 31st street or near the ballpark complex to the north.

Pilots must stay in the pilot staging areas defined by the Pilot Stations maintaining verbal communications.

3D large aircraft hovering and stationary aerobatics must be done east of the main runway unless there are no other flyers in the pattern.
