

Field and Flight Rules as of 2/26/14

1. Access to the field area enclosed by the safety fence is restricted to Tulsa Glue Dobbers members and their guests.
2. Full Open AMA Membership is required for flying, except for the introduction of a guest to radio controlled flight by a Glue Dobbers member employing a functioning buddy box and cord.
3. The Tulsa Glue Dobbers Field is open from sunrise until one half hour after sunset, however, glow or gasoline engines may not be started or run for any purpose until 8:00 am.
4. The Frequency Board must be used at all times if using 72 MHz radio system.
2.4 GHz flyers must put their ID badge on their transmitter or somewhere visible on their person to identify themselves as current club members.
5. There shall be no flying of aircraft west of the north south line described by the inner edge of the runway nor shall any aircraft be flown south of 31st street or over the ballpark complex to the north. An exception to this dead line rule is noted on the Flying Field Safety Rules diagram posted at the field and on the TGD website. It outlines a safe landing area for gear-less aircraft.
6. There shall be no taxiing to or from the pits unless the aircraft is positively controlled and restrained by hand.
7. Effective mufflers are required on all engines of .20 cubic inches displacement and larger.
8. Each Glue Dobbers member is responsible for removing all trash he or she creates from the field, and upon being the last member to leave the field, lock the clubhouse, and close and lock the gate.
9. No alcoholic beverages shall be used or consumed on the premises.
10. Certain members are designated as "Safety Officers". They are responsible for conveying the safety rules of this club and the AMA. In severe cases of possible injury to others or equipment at the field, the designated officer may ground the flyer.
11. Any and all rules of the City of Tulsa Parks and Recreation Department applicable to all City Parks and/or this Park in particular shall be observed by Glue Dobbers members, their guests and the general public while visiting.
12. All Academy of Model Aeronautics field and flight rules and regulations apply to the Tulsa Glue Dobbers Field and flight operations at the field.
